WE ARE PRESTIGE

M-LINE

"A new art of living on the water, inviting you to enjoy smooth, serene cruising in perfect harmony with nature... Welcome to the world of the M-LINE. The M-Line is a distinctive range within the PRESTIGE portfolio, designed as pure motor yacht line featuring an optimized twin-hull naval architecture. With several models already in this range, PRESTIGE is establishing its presence in the multi-hull segment. Built both in Italy and France, these yachts reflect the excellence of both design and craftsmanship, while offering an unprecedented onboard experience marked by space, stability, comfort and openness. With the M-Line, we are not only introducing a new vision, but shaping a more conscious and refined way to experience life at sea."

Jean-François LAIR,
PRESTIGE Brand Director

PURE MOTOR YACHT ARCHITECTURE

Conceived as true motor yachts, M-Line models extend their design across two hulls to reveal an entirely new dimension of onboard living. This innovative architecture offers up to 20% more living space than a traditional monohull of equivalent length. The result is a seamless blend of generous volumes, refined comfort, and abundant natural light.

"At sea, the comfort and well-being of the people on board are essential for PRESTIGE. Two hulls, rather than one, ensure natural stability without the need for stabilization."

 Marc LOMBARD Yacht Design

THE SERENITY OF GENTLE CRUISING

Whether cruising or at anchor, M-line two hulls demonstrate remarkable stability and safety. The architecture of the multi-hull design guarantees optimal fuel efficiency, offering a saving of 25% consumptions compared to a traditional monohull of equal living space. M-line yachts are adapted to a gentler, peaceful way of life, in harmony with your environment.

"The starting point was the desire to bring the cockpit closer to the sea, transforming it into a true lowered terrace facing aft, offering an even more immersive onboard experience. Inside, we paid close attention to the ergonomics of every area."

GARRONI Design Studio

PROXIMITY TO THE SEA

The M-Line offers true proximity with the sea, with multiple, easily accessible exterior living areas like the two-level cockpit. Exceptional on the interior, as well, the saloon features large windows and sliding glass doors, providing a panoramic view of the landscape and the sea.

A NEW STANDARD OF LIFE AT SEA

True homes on the water, M-Line yachts offer exceptional comfort, with layouts, interior fit and finish, and equipment enabling a feel-at-home atmosphere, on open waters and in the most sublime landscapes. Numerous configurations and options are available to adapt to each person's needs and preferences, like the Silent Mode that allows running the yacht for 10 hours at night or 2 hours during the day without the generator running, offering incredible comfort with no noise pollution, no vibration, and no direct CO2 emissions.
